

### **advanced medical life support pdf**

Advanced Life Support (ALS) is a set of life-saving protocols and skills that extend Basic Life Support to further support the circulation and provide an open airway and adequate ventilation (breathing).

### **Advanced life support - Wikipedia**

Advanced cardiac life support or advanced cardiovascular life support (ACLS) refers to a set of clinical interventions for the urgent treatment of cardiac arrest, stroke and other life-threatening cardiovascular emergencies, as well as the knowledge and skills to deploy those interventions. Outside North America, Advanced Life Support is used.

### **Advanced cardiac life support - Wikipedia**

Cardiac life support is a relatively young field of medical expertise with cardiopulmonary resuscitation (CPR) as we know it only being described in 1960. As new evidence on best practice in resuscitation medicine comes to light, the recommendations for resuscitation and life support evolve and change. | RACGP

What kind of medical care would you want if you were too ill or hurt to express your wishes? Advance directives are legal documents that allow you to spell out your decisions about end-of-life care ahead of time. They give you a way to tell your wishes to family, friends, and health care professionals and to avoid confusion later on.
