Corporate finance is an area of finance that deals with sources of funding, the capital structure of corporations, the actions that managers take to increase the value of the firm to the shareholders, and the tools and analysis used to allocate financial resources. The primary goal of corporate finance is to maximize or increase shareholder value. Although it is in principle different from ...

Highlights This paper reviews the research in accounting for income taxes. We conclude that: Managers use the tax accounts to manage earnings to meet or beat analysts' forecasts. A few studies document associations between book-tax differences and earnings characteristics. It is unclear whether the market prices the information.
