

neolithic and megalithic cultures pdf

In the Middle East, cultures identified as Neolithic began appearing in the 10th millennium BC. Early development occurred in the Levant (e.g., Pre-Pottery Neolithic A and Pre-Pottery Neolithic B) and from there spread eastwards and westwards. Neolithic cultures are also attested in southeastern Anatolia and northern Mesopotamia by around 8000 BC. [citation needed]

Neolithic - Wikipedia

A megalith is a large stone that has been used to construct a structure or monument, either alone or together with other stones. The word megalithic describes structures made of such large stones without the use of mortar or concrete, representing periods of prehistory characterised by such constructions. For later periods, the word monolith, with an overlapping meaning, is more likely to be used.
