Principal component analysis is a statistical technique that is used to analyze the interrelationships among a large number of variables and to explain these variables in terms of a smaller number of variables, called principal components, with a minimum loss of information. Our goal is to find a ...

A real estate broker or a real estate agent is a person who represents sellers or buyers of real estate/real property. While a broker may work independently, an agent must work under a licensed broker to represent clients. Brokers and agents are licensed by the state to negotiate sales agreements and manage the documentation required for closing a real estate transactions.
