Translation is the communication of the meaning of a source-language text by means of an equivalent target-language text. The English language draws a terminological distinction (not all languages do) between translating (a written text) and interpreting (oral or sign-language communication between users of different languages); under this distinction, translation can begin only after the ...

An encyclopedia or encyclopÆdia is a reference work or compendium providing summaries of knowledge from either all branches or from a particular field or discipline. Encyclopedias are divided into articles or entries that are often arranged alphabetically by article name and sometimes by thematic categories. Encyclopedia entries are longer and more detailed than those in most dictionaries.

Virtue ethics is currently one of three major approaches in normative ethics. It may, initially, be identified as the one that emphasizes the virtues, or moral character, in contrast to the approach that emphasizes duties or rules (deontology) or that emphasizes the consequences of actions (consequentialism).

Virtue Ethics (Stanford Encyclopedia of Philosophy)

Levinas's philosophy has been called ethics. If ethics means rationalist self-legislation and freedom (deontology), the calculation of happiness (utilitarianism), or the cultivation of virtues (virtue ethics), then Levinas's philosophy is not an ethics.
