i am new to PLC. i know about programming using ladder logic. i am good in that but i dont know anything about working with AB plc. how to load the program?

Allen Bradley's PLC Programming Handbook | PLCdev

Programming as collaborative reference We argue that programming-language theory should face the pragmatic fact that humans develop software by interacting with computers in real time.

Programming and Computation - okmij.org

A programmable logic controller (PLC) is an industrial solid-state computer that monitors inputs and outputs, and makes logic-based decisions for automated processes or machines.

Engineering Essentials: What Is a Programmable Logic

EdWare, a hybrid graphical robot programming language, was the original language for the Edison robot. EdWare has since been retired, replaced by three other languages: EdBlocks, EdScratch and EdPy.

EdWare - hybrid-graphical programming language for the

The LMAX Architecture. LMAX is a new retail financial trading platform. As a result it has to process many trades with low latency. The system is built on the JVM platform and centers on a Business Logic Processor that can handle 6 million orders per second on a single thread.

The LMAX Architecture

Extreme programming (XP) is a software development methodology which is intended to improve software quality and responsiveness to changing customer requirements. As a type of agile software development, it advocates frequent "releases" in short development cycles, which is intended to improve productivity and introduce checkpoints at which new customer requirements can be adopted.

Extreme programming - Wikipedia

Communication, in General. The single biggest problem in communication is the illusion that it has taken place. " George Bernard Shaw. If you cannot - in the long run - tell everyone what you have been doing, your doing has been worthless.
