A quarantine is used to separate and restrict the movement of people; it is 'a restraint upon the activities or communication of persons or the transport of goods designed to prevent the spread of disease or pests', for a certain period of time. This is often used in connection to disease and illness, such as those who may possibly have been exposed to a communicable disease.

### **Quarantine - Wikipedia**

I have written about diabetes quite a few times. Thus far, I must admit, I have kept the discussion relatively conventional. Anyone who has read my previous blogs may not think so, but compared to what I really believe, everything has taken place close to the middle ground. Time, I believe, to start turning diabetesâ€¦
