

ubiquitous computing and multimedia pdf

Personal and Ubiquitous Computing publishes peer-reviewed multidisciplinary research on personal and ubiquitous technologies and services. The journal provides a global perspective on new developments in research in areas including user experience for advanced digital technologies, the Internet of Things, big data, social technologies and mobile and wearable devices.

Personal and Ubiquitous Computing – incl. option to

International Journal of Wireless Communications and Mobile Computing (WCMC) , a peer-reviewed open access journal published bimonthly in English-language, aims to foster a wider academic interest in this fast moving field, and publishes a wide range of researches on the R&D communities working in academia and the telecommunications and networking industries with a forum for sharing research ...

International Journal of Wireless Communications and

Context awareness is a property of mobile devices that is defined complementarily to location awareness. Whereas location may determine how certain processes around a contributing device operate, context may be applied more flexibly with mobile users, especially with users of smart phones. Context awareness originated as a term from ubiquitous computing or as so-called pervasive computing which ...
