A minority group refers to a category of people who experience relative disadvantage as compared to members of a dominant social group. Minority group membership is typically based on differences in observable characteristics or practices, such as: sex, ethnicity, race, religion, disability, sexual orientation, or gender identity. Utilizing the framework of intersectionality, it is important ...

Types. Political violence varies widely in form, severity, and practice. In political science, a common organizing framework is to consider types of violence by the relevant actors: violence between non-state actors, one-sided violence perpetrated by a state actor against civilians, and violence between states.

Incident selection. IMV incidents associated with perpetrators of both categories were selected from existing, published datasets of ideologically motivated violence. Based on a combination of these existing datasets, United States-based IMV incidents from 2002 to 2015 resulting in two or more fatalities were included. We also included a set of violent ideological plots that were prevented or ...
