A family business is a commercial organization in which decision-making is influenced by multiple generations of a family "related by blood or marriage or adoption" who has both the ability to influence the vision of the business and the willingness to use this ability to pursue distinctive goals. They are closely identified with the firm through leadership or ownership.

Family business - Wikipedia

Researchers have used various measures as indications of "earnings quality" including persistence, accruals, smoothness, timeliness, loss avoidance, investor responsiveness, and external indicators such as restatements and SEC enforcement releases.

Understanding earnings quality: A review of the proxies

NIEM is a common vocabulary that enables efficient information exchange across diverse public and private organizations. NIEM can save time and money by providing consistent, reusable data terms and definitions

and repeatable processes.

NIEM | National Information Exchange Model

Family economics applies basic economic concepts such as production, division of labor, distribution, and decision making to the study of the family. Using economic analysis it tries to explain outcomes unique to family—such as marriage, the decision to have children, fertility, polygamy, time devoted to domestic production, and dowry payments.
