Mental Illness and Mental Health in Adolescence

A mental disorder, also called a mental illness or psychiatric disorder, is a behavioral or mental pattern that causes significant distress or impairment of personal functioning. Such features may be persistent, relapsing and remitting, or occur as a single episode. Many disorders have been described, with signs and symptoms that vary widely between specific disorders.

Guide to Mental Illness and the Criminal Justice System

The concept of a link between creativity and mental illness has been extensively discussed and studied by psychologists and other researchers for centuries. Parallels can be drawn to connect creativity to major mental disorders including: bipolar disorder, schizophrenia, major depressive disorder, anxiety disorder, and ADHD. For example, studies [which?] have demonstrated correlations between ...
