Wake turbulence is a disturbance in the atmosphere that forms behind an aircraft as it passes through the air. It includes various components, the most important of which are wingtip vortices and jetwash. Jetwash refers simply to the rapidly moving gases expelled from a jet engine; it is extremely turbulent, but of short duration.

The IARC report was published in The Lancet Oncology and detailed evaluations of organophosphate pesticides and herbicides. The report concluded that there was "limited evidence of carcinogenicity in humans for non-Hodgkin lymphoma." The evidence for this conclusion was pulled from studies of exposure to the chemical in the US, Canada, and Sweden published since 2001.

This is another post from the Suggest a Topic page, and while the original comment had a lot of questions about the overall functioning of an economy, I thought I'd take one question from it, and try and answer that in a post.. Why can't a country print money and become rich? A lot of people have this misconception that a country's currency is backed by the gold it holds.
