Economic inequality covers a wide variety of topics. It can refer to either income distribution, measuring the amount of money people are paid, or the distribution of wealth, which captures the amount of wealth people own. Inequality among nations is covered in international inequality and countries listed by income inequality. For the United States, see United States income inequality, United ...

3.2. A basic overlapping-generation Bewley model. The infinite horizon Bewley model does not account for the heterogeneity that arises from the life cycle, which is an important source of heterogeneity in wealth because people typically enter the labor market with little to no assets and then gradually accumulate them, at least until retirement age.
