But here's the main reason why you see trails on some planes but not on others, and l'll emphasize it, because although it's simple, it's also easy to miss.

## Why do some planes leave long trails, but others don't

5. Summary: Elaborate usability tests are a waste of resources. The best results come from testing no more than 5 users and running as many small tests as you can afford. Some people think that usability is very costly and complex and that user tests should be reserved for the rare web design project with a huge budget and a lavish time schedule.

Chivalry, or the chivalric code, is an informal, varying code of conduct developed between 1170 and 1220, never decided on or summarized in a single document, associated with the medieval Christian institution of knighthood; knights' and gentlewomen's behaviours were governed [when?] by chivalrous social codes. [better source needed] The ideals of chivalry were popularized in medieval ...

Why, specifically, did you "have to" rename the Active Directory? Having your AD forest name match your public-facing domain name is not remotely "required," and it seems like a minimal/non-existent problem that "some other organization" might end up buying "yourdomain.local" and cause DNS issues.

# Why you shouldn't use .local in your Active Directory

The Big Lie principle, as elaborated by Hitler and Goebbels, is that if you tell a small lie, you'II be caught on it, but if you tell a really big, even outrageous whopper, people will tend to believe it. It's an insight into human psychology which helps explain how those two second-stringers ...
